What Oregon is thought of Abroad

From the Ballot ... Hawk Eye

The Democracy have an accidental majority in the Oregon Legislature. A wide awake Democrat ... ... regularly for General Jackson ... this day ... hardly wait ... days ago for that body to be regularly organized before he introduced a resolution ... Ohio and New Jersey withdrawing the assent of Oregon to the XIV constitutional amendment which was formally ... constitution long ago.

While this distinguished individual is serving the rebels ... the amendment abolishing slavery ... Repeal the reconstruction laws. Repeal every act passed since the rebels ... war on the Union. Bring back the good old days ... speaking up behind ... the earth ... slave holders ... When the air ... Washington was thick with threats of disunion ... war ... perjuries of thefts of dishonor ... of infamy. What true Democrat does not yet sigh for these good old days? What Oregon Democrat will come forth and bring them back again?

How they Respect the Negro

We have on several occasions shown the meaning of the rebel demand for peace. The negroes of South Carolina have published an address to the "white man's government" men, which tells a great deal of plain truth, a part of which will be seen in the following extract. It is truth and good sense blended, if it did come from a negro source:

You did nothing to encourage us, you derided the idea of granting us the right to vote when your Legislature met in 1865-66 you passed that infamous Black Code which is a disgrace to civilization, in that you denied us all rights in common with other people in the State. You by these acts denied our children the school house. You imposed penalties on us which were not imposed on white men. There were crimes for which if committed by a white man he was imprisoned but if committed by a black man, he was hung. We submit to you whether that course was not enough to make us disbelieve every protestation of love which you make. Your laws provided for taking and binding out our children and subjecting us to all manner of disabilities. We could not pursue any trade or calling in this State without a written permission from some white man, we could not sell any article of barter without the consent first obtained from some magistrate. With all these facts before us and your Negro Code before us, and the penitentiary filled with our race as the results of your legislation and the acts of your judges and lawyers do you not see why we have been constrained to trust to strangers rather than to those who claim that they are our natural friends?

The "World's" Article

But a small portion of the article of the New York *World* on the withdrawal of Seymour and Blair was telegraphed here. The following are some additional extracts from it:

If in a review of the whole situation it shall be concluded that mistakes have been made, it is better that they should be corrected now than that the country be dragged through four more weary years of strife, to be redeemed then by measures of the same kind that might by a magnificent exercise of pluck be as easily adopted now. *Whatever sagacious foresight may perceive to be the proper course of the Democratic party four years hence it should be taken now.* ... The time has come the hour has struck when we must turn our faces resolutely to the future. Our country has a great career before it which no imagination can grasp. A majority of our voters are young, abounding in hope and activity and the country being in the dawn of a new era when all minds are filled with expectation and excitement that party has the best chance of a great future which is most in sympathy with the youthful irrepressible energy of the nation. A growing nation like an improving individual has always something to learn. A political party which does not advance with the nation and enter into the fulness of its expanding exuberant life is on the delivery which descends to decadence and decrepitude. The Democratic party is full of vigorous youthful aspiring elements. Similar elements in the other party are yearning to join it, if we have but the boldness to build a bridge on which they can cross.

THROWING GUANO.—Jerry Black has been throwing guano at the President, having in mind the Latin quotation ... In a letter to the President dated ... July referring to Secretary Seward he says: "And you keep this driveling charlatan in office. Nay you keep him at the head of the Administration and give him an influence only equalled by that which in former times some old strumpet might have exercised over the mind of an imbecile monarch;" and then he says that "Madame de Pompadour used her power with Louis XV to fill the Bastiles of France with the best and most innocent of that generation but that even "she would have blushed to invent false excuses for foreign robbers of her countrymen, and that the King of Bavaria in the most infatuated hour of his life would have turned Lola Montez from his bed and board if she had dared to urge upon him an act of injustice so gross as this ... of the Secretary of State in his decision on this guano case." Nor ... the excited Mr Black in his wrath stop here. He demands the removal of Secretary Seward at "once and forever" and says that he has brought innumerable woes upon the country, that he will never be faithful to the right, that he is not even a fifth rate lawyer and has always been a mere sneak, that he is a convert with ... and will be a backslider ... the first temptation, that all men ... as they love justice must despise him and ... to the same purport.

ROUSSEAU AND GRANGER.—The Springfield (Mass.) *Republican* of Oct. 10th has the following:

Gen. Gordon Granger will be strongly pressed by himself and his political friends for the brigadier generalship in the regular army vacated by the resignation of Gen Hooker. Gordon is now ... colonel of infantry. If the President makes this appointment the Senate should exercise its right of dissent and reject it. Republican Senators confirmed Rousseau though everybody knows he was a military humbug because they wished to respect the decision of the President as commander in chief. But one such piece of ... is quite sufficient—enough has been done for ... Gordon owes all the little reputation he ever had to the dramatic character of his accidental appearance at Chickamauga and also to the fact that his first name is a ... He is only ... to the position ... a hanger ... the White House ever ... will be ready to do Mr Johnson's dirty work in Tennessee as Rousseau is doing in Texas. The Senate need not insist on the appointee being a Republican but it should not confirm him simply ... he is a Democrat ...

HARD ENOUGH ON POLITICS.—The following letter explains itself:

New York, Oct 9, 1868.

Dear Friend: I am harassed to death with letters and invitations out ... I have absolutely no rest ... though I have employed two secretaries to ... answer ... communications addressed to me. When I ride out I am pestered by applications to take part ... that ... make speeches. When I ask for a cigar or a glass of water I invariably receive a bushel of political stuff. When I go to bed I find them ... under my pillow. ... I find my clothes lined with ... I put my hat on ... If you can ... put a stop to this infernal ... I ... that my good temper is fast ... I ... don't ... take any part in politics at present and I desire to be let alone.

Seward Makes a Speech and Pronounces for the Republican Party.

AUBURN Oct 31.—Secretary Seward addressed an immense audience in Corning Hall to-day. After a lengthy review of the situation down to the ... administration of President Lincoln he said Johnson had adopted his predecessor's plan of reconciliation which seemed to him, as it seemed to the whole country, to be practicable and easy. Seward proceeded to explain the antagonism between Congress and the President. He vindicated the ... and patriotism of the latter and said the country needed now nothing more than the admission of the loyal representatives from the late rebel States into Congress. He said, as he thought, the situation which existed in 1866 ought to have been accepted as reasonable, patriotic and humane, so he thinks the situation now ..., after the best efforts which have been made to ... the latter, ought to be accepted.

Seward proceeded to say: The attitude of each of the political parties in this canvass is in some respects different from what I myself could have ... Very great crimes have been committed in the name of liberty by the Republicans of the United States. Flagrant crimes were committed in the same holy ... by the French Republic in the revolution of 1789. Nevertheless the Republican party neither rests under any suspicion of disloyalty or devotion to ..., nor can it fall under such suspicion. The Democratic party ... with how much justice, has put ... itself ... its ... and ... election as to secure the entire confidence of a loyal and ... people in its unconditional ... to the Union or its acceptance and approval of the effective abolition of slavery. I entertain ... of the Democratic party or its leaders; no unfriendly or uncharitable feelings toward that ... party. On the other hand ... grateful appreciation of my fellow citizens, with whom I have cheerfully labored and co-operated while they still retain adhesion to the Democratic party.

He went on to eulogize the loyalty and ... of Johnson, Hancock, McClellan, and ... Buckalew, Niblack Cox and other Democrats. He had "regarded with sincere and patriotic solicitude the efforts of Democratic leaders as well as those ... in 1867 in Chicago and the greater ones made in New York in 1868 to lift the Democratic party up to the plane ... attaining which all the errors and short comings of its members during the war, could at once drop off from the Democratic party's back as the burden of the Christian fell off his back when he came up to the Cross. If the Democratic party had only ... that point, I should have felt that no further concern on my part about the work of reconstruction and reconstruction might be dismissed. In that case we should have had the two parties of the country ... agreed in the right as the two great parties of the country in my judgment, in 1850, were ... wrong. In 1850 both parties agreed on the ... of 1850 which accepted the fugitive slave law ... the extension of African slavery and ... upon it in the national Congress forever. If the Democratic party in 1868 had lifted ... to the position I have supposed, we should have had both parties of the country practically agreeing to the justice, wisdom and humanity of the Government in the civil war and of the abolition of slavery, and at the same time ... have reached the city of peace and fraternal affection.

The Democratic party have failed to do so ... preparation to assume the responsibilities of ... nation must be delayed four years. To confide these responsibilities to that party in its present condition would be to ... perhaps ... the ... political excitement which alone has delayed the complete restoration of the Union to the present time."

Hoffman Issues a Proclamation.

NEW YORK, Nov 1.—Mayor Hoffman ... issued a proclamation setting forth that some unscrupulous and designing men had conspired to prevent naturalized citizens from voting, under pretense that their papers had been fraudulently obtained. GRANT FOR PRESIDENT, BOYS

By the [illegible] star above us,
Where the spirits live that love us,
By the [illegible] graves at our feet,
By the shout, and song, and chorus,
By the [illegible] o'er us,
We pledge the traitors sure defeat

By the red-stained soil we tread on
By the [illegible] soil we bled on,
By the blood we freely shed,
By the valor of our brothers,
By the love we bear our mothers,
We follow where our fathers led

By the dear ones at our altars,
By the faith that never falters,
By the hopes beyond the sky,
By the heaven that's bending o'er us,
By the martyrs gone before us
We will conquer or we'll die!

By the battles long and gory
By the victory and glory
Which our hero brothers won
By the souls that we inherit,

"They will Surrender if things are pushed."—SHERIDAN.

"Push things"—GRANT.

"OUR CANDIDATE—MARK HIM"

"It is an insult to ask any Northern man to support a candidate whose anxiety that the Flag should have thirty-six and not twenty stars did not come to him until after Lee's surrender."—*Private Letter of General Grant*, 1868.

"This is a Republic where the will of the people is the law of the land I beg that their voice may be heard. General Sheridan has [illegible] his civil duties faithfully and intelligently. His removal will only be regarded as an effort to defeat the laws of Congress. It will be interpreted by the unreconstructed element in the South, those who did all they could to break up the Government by arms, and now wish to be the only element [illegible] to the [illegible] of [illegible] order, as a triumph. It will embolden them to renewed opposition to the will of the loyal masses, believing that they have the Executive with them."—*Gen. Grant to Andrew Johnson, August 17, 1867.*

"Go to the Union Republicans in Congress, and to them alone. Have nothing whatever to do with Northern men who opposed the war They will never again be intrusted with power. The more you consort with them, the more exacting the Republicans will be, and ought to be. When you get home, urge your people to accept negro suffrage If you had promptly adopted the constitutional amendment abolishing slavery, or the one making negroes citizens, and [illegible] the public debt, Congress [illegible] have admitted you before this. Now it will insist upon adding impartial [illegible]. The sooner you accept that, the better for all [illegible]."—*Gen. Grant to Gov. Orr, of South Carolina, and others, [illegible] of 1866.*

"It was never a desire of mine to be a candidate for [illegible]. It is a source of gratification to me to feel that I have the support of those who sustained me in the great rebellion through which we have passed If I did not feel I had the support of these, I would never have consented to be a candidate It was not a matter of choice with me but I hope, as I have accepted, that I will have your aid and support from now until November, as I had it during the rebellion —*Gen. Grant to the Committee of Soldiers and Sailors, May 29, 1868*

Buell to Grant—"What preparations have you made to retreat, General?" Grant to Buell "We shall not retreat, sir" Buell "But it is possible, and a prudent General always provides for contingencies" Grant "Well, there are the boats" Buell "The boats! But they will not hold over ten thousand men, and we have thirty thousand" Grant They will hold more than we shall retreat with We shall whip them yet —*Scene at the battle of Shiloh*

"Promptly at the hour designated, all will start at quick time, with bayonet fixed and march immediately upon the enemy, without firing a gun until the entire works are carried —*Grant's order of assault on Vicksburg*

"In my opinion the great number of murders of Union men and freedmen in Texas, not only as a rule unpunished but uninvestigated, constitute practically a state of insurrection and believing it to be the province and duty of every good government to afford protection to the lives liberty and property of her citizens I would recommend the declaration of martial law in Texas to secure these ends

The necessity for governing any portion of our territory by martial law is to be deplored If resorted to, it should be limited in its authority and should leave all local authorities and civil tribunals free and unobstructed until they prove their inefficiency or unwillingness to perform their duties —*Grant on Texas Affairs, January 1867*

If chosen to fill the high office for which you have selected me I will give to its duties the same energy the same spirit, and the same will that I have given to the performance of all duties which have devolved upon me heretofore Whether I shall be able to perform those duties to your entire satisfaction, time will determine You have truly said in the course of your address that I have no policy of my own to interpose against the will of the people"—*Speech in reply to Governor Hawley's tendering the Republican nomination.*

The Meetings Last Night

The Republican meeting at the old theatre last night was well attended and much enthusiasm was manifested Excellent speeches were made by Messrs Gibbs, Mitchell, Meacham and Dolph Owing to a severe indisposition Mr Logan was unable to speak The Republicans of Portland go into the fight to day with a confident hope of obtaining a good majority

The Democrats had what they called a torch light procession last night There were just ninety seven men in the procession though we heard a dispute as to the number between a Republican and a Democrat—the former stating that there were but ninety seven and the latter declaring with much indignation and a profusion of d—ns that there were *one hundred and one* One of the few transparencies had the figures of four Chinamen painted on it, and it seems probable that the discrepancy in the count arose from the fact that the Republican took no notice of this Chinese feature of the Democratic procession while the Democrat counted them with the rest.

More Democratic Intelligence

The following dispatch is sent from San Francisco for the benefit of the *Herald* and the (Sey) mourning Ku Kluxes of Oregon

San Francisco Nov 2.—The Democratic torchlight procession on Saturday night was the greatest ever seen in this State There was 10 000 in the procession The Democratic majority on the Congressional vote in Indiana is sixteen hundred The Radicals give it up for Seymour A dispatch from New York says that the Democrats are jubilant in the belief that Seymour will reclaim Pennsylvania Seward denounces the Republican party

"Here's richness," indeed! All we ask is for Democrats to wait just twenty four hours, when they will have news from Indiana and Pennsylvania which will make them sing quite another tune. To-morrow night the Democratic bird will be found roosting much lower, in fact it will be flat on the ground, with its wings clipped, comb cut, spurs knocked off and tail feathers pulled out This same dispatch says," Seward denounces the Republican party" We refer the reader to our dispatches for an account of what Seward actually said.

The Republican Pyramid

Before the door of the old theatre building in which the Republicans held their meeting last night, they had an illuminated pyramid which showed off in this style

```
                OHIO
         A      MAINE       C
       T       VERMONT        O
     N        INDIANA          L
   A         NEBRASKA            F
 R        NEW HAMPSHIRE            A
G        WEST VIRGINIA              X
       PENNSYLVANIA
```

These are States which have given Republican majorities during the present year To day twenty more States will be added and the Republican pyramid will assume the most magnificent proportions

Hon. James G Blaine, the well known Representative of Maine from Augusta District, has written a letter advocating the most direct rail way communication from the harbor of Portland to the channel of the St. Lawrence, probably Ogdensburg, with the view of reaching, by the navigation of the Great Lakes, "that vast and fertile area which is devoted to the production of cereals for two continents" and the route of the Northern Pacific Railroad When such a communication from Portland, of Maine, to Portland, of Oregon, is completed, Mr Blaine predicts that steam lines will compass the circuit of the globe in three days, quicker time than by any other transit

A New York Democrat who is weary of being tied to the dead body of Copperheadism recently exclaimed "Let us get through this time, and after this we will see to it that other men shall lead the Democratic party and make its platforms" This man had an inkling of the truth His party has repeatedly thrown away its opportunity. Its present platform is an expression of dying rebellion But it may be doubted whether the Democratic party will ever rise up to a higher plane. It has outlived its intellect, has lost all cognizance of real events, and only drivels morbidly over the past.

In a recent speech in Philadelphia Senator Wilson said "The men who rode to Gettysburg and broke the advancing columns of Lee, have a right to live where they please. They may take their knapsack or their carpet bag with them If Wade Hampton don't like their carpet bag if South Carolina is not large to hold Wade Hampton and their carpet-bag, then Wade Hampton must get out of South Carolina If anybody has got to leave any of the States, it must be the unrepentant traitor"

Says the San Francisco *Times* "Since the result of the recent elections has been known, and the success of Grant regarded as a fixed fact, gold has come tumbling down at a great rate. Yesterday it rated in New York at 133⅜—a decline in a few weeks of fifteen cents Good authorities say that very soon after the election of Grant and Colfax, if no extraordinary convulsion shall be threaten d in the South, gold will come down to 120, or even to a lower figure

Says the Nashville *Press and Times*, speaking of the infamous General Forrest "He is doing a thousand fold more damage to the disfranchised people of Tennessee than he did to the Union army in the field. His language is that of a reckless incendiary, who is wholly regardless of the welfare and peace of the people Every speech he makes weakens the Seymour and Blair-ticket His Brownsville speech was simply infamous"

Just after the Tammany Convention of last July had done its work the New York *World* came out with a gushing leader headed The Great Issue of the Canvass—General Blair's Letter of Acceptance" But since the October elections the *World* has been climbing down and the Democratic National Committee, in their address to the people, try to make it appear that Blair's opinions are of no consequence whatever!

The Seymour and Blair party have raised the flag of a second rebellion They have proclaimed another revolution to change the results of the first The leaders of the party are the same men who incited and led the first rebellion This is the reason why the rebel Democratic party will be so overwhelmingly defeated to day

The Democratic orators and letter writers have generally given over breaking their teeth on our great Republican file, General Grant, but they cannot yet quite endorse his immortal motto VOTE ONLY FOR SUCH MEN AS WERE LOYAL TO THE COUNTRY IN 1861

The telegraph favors us with a talk by Chief Justice Chase He says that this is the time for a man like himself who is looking out for future preferment to remain neutral Of course it [illegible] of consequence [illegible] body [illegible] or whether he [illegible]

The rebels have beat the drum of the rebellion and the Copperheads are marching to its music [illegible] is leading them all into the [illegible] together

The San Francisco *Alta* speaks of the recent manifesto of a noted demagogue in behalf of Seymour as the "the last dying speech and confession of A Johnson"

THE CANDIDATES CONTRASTED

Grant and Colfax.

I left the army expecting never to return I am no seeker for position, but the country which educated me is in sore peril, and, as one man of honor I feel bound to offer my services for whatever they are worth" [Grant at Washington April 1861

In all the hours of disaster and gloom when men's hearts fainted on the way there was one party every man of which stood around one banner and never despaired of the American Republic, and there is one organization that, since the armies of the rebellion were crushed has demanded and intends to stand by that demand to [illegible] our help [illegible] and that Loyalty shall govern what Loyalty preserved [Colfax at Indianapolis

God do so to me and more also, if at any time I do aught to thrust any man down lower [Colfax in Congress

Seymour and Blair.

Remember that the doctrine of public necessity can be proclaimed by a mob as well as by a government

My friends I wish to inform you that I have sent my Adjutant General to Washington to have this draft suspended and stopped [Seymour in New York, July 1863

Let us see if successful coercion by the North is less revolutionary than successful secession by the South Shall we compromise after war or compromise without war? —[Seymour in Albany 1861

We must have a President who will trample into dust the reconstruction acts [Blair's letter to Brodhead

Looking to America

The friends of liberty and human rights the world over are watching with absorbing interest the course of the American people at this crisis in our affairs M Laboulaye, the celebrated French Professor and Republican who so eloquently advocated the cause of the Union all through the war has written a letter on our Presidential election "Who will be President?" he asks and then adds

This is a question which touches us (the French Liberals) more closely than the attitude of Prussia or the Spanish revolution for it involves the triumph of liberty and equality throughout the world For it is neither Prussia nor France which holds in its hands the future of civilization —that favored country is America

M Laboulaye cannot understand how the election of Grant can be contested or how the Americans can refuse to elevate to the Presidency a man of such great ability, who has rendered such incomparable services He argues the case with great intelligence, and gives utterance to many sentences that are deserving of thought by Americans. We signalize two or three

United and Republican America draws the Old World after it The youth of France, Spain Italy and Germany the workmen of the whole world have their eyes upon you

What concerns me in this election is the interests of democracy through the whole world

In France we are reproached with our frivolity and justly But there is a point where we are not guilty of frivolity He, whoever he was, who abandoned our country in her day of danger he who sowed dissensions he who sought to lead strangers to interfere in our civil wars—such a man is always for us an enemy Not only do we refuse to listen to him, but we never pardon him We forget everything except desertion of the flag

The election of Horatio Seymour can only be regarded as a firebrand of civil war The election of Gen Grant would be, on the contrary, a pledge of peace and security

Republicans of Oregon! let us to day send three times three hearty cheers back to our brethren in the East who are bearing the brunt of this great battle, and resolve to meet them under the old apple tree at Appomattox to witness the downfall of the second rebellion!

The Democrats and rebels have forced the war issue on the people in this canvass. The Union people of the nation accept the challenge, and will to day repeat for the benefit of Democrats and rebels the lesson that was given them at Appomattox

A new book is coming out which we take pleasure in commending to lovers of Democratic literature It is a *Life of Jefferson Davis*, by Pollard, the historian of the *Lost Cause*, and other Democratic works

Gov Woods has vetoed the Chinese Tax Bill We shall print the bill and the veto as soon as we can find room

Were it not for New York city, Kentucky and the Ku Klux Klans, the Democratic party would be about extinct

A local paper in Arkansas says that dirt is so cheap there, that persons buying farms have to look sharp or they will have an extra forty acres or so smuggled into the deed

[illegible] CULTURE —Dr Wm Koehler of this city [illegible] pioneer of silk culture in Oregon, has [illegible] in the matter of raising silk [illegible] The [illegible] of Dr K's experiment is certainly all that could be expected considering the difficulties [illegible] worked He says

Noticing the energy with which our friends in California have advanced silk culture in this noble [illegible] I thought it ought not to be without a trial here in our Oregon climate Last winter I procured from my esteemed friend L Provost, of San Jose, the [illegible] of silk culture in California, some eggs of the silk worm. Longing to catch its glimmer near [illegible]
The jealous distance veiled in tender haze

What care I if the pansies purple be

Boiling a Cocoanut

From the Californian

Tom is a genuine specimen of the genus *Piketus Oregoniensis* He lived at the Dalles where he had retired to enjoy city life after having accumulated a competency by lucky speculations in cattle

Tom was no fool, on the contrary rather sharper than the average of *his kind*, in matters and things that he "knowed about

One morning tom walked up town, as was his wont, to see what was going on and stopped in front of the "Mount Hood" Saloon to exchange matutinal salutations with his friends, Jim C and Vic T, who occupied armed-chairs near the door Adjoining the 'Mount Hood' was a cigar, and 'genuine meerschaum" pipe stand, and among the multitude of wares exposed for sale on the sidewalk was a huge pile of cocoanuts arranged like cannon balls 'What's them?' asked Tom 'Cocoanut" replied Jim, quietly "What are they for," Tom inquired "To eat, you darned fool," said Jim, "didn t you ever see a cocoanut before?"

"How do you eat 'em, continued Tom, waiving the reflection upon his ignorance. "Why, boil them," continued Jim, with great immobility of face So without further delay Tom bought the largest one he could find, paying six bits therefor, and made a bee-line for home.

That evening Tom came up town, and entering the "Mount Hood," said to Vic in a quiet tone. "The old woman has bin a bilen that cocoanut *all day*, and it 'pears like it aint done; it every once and a while she mak a dive after it with a two prong'd fork, and it *cavorts* all round the kittle What do you think?"

"Why," said Vic, "perhaps you didn't put any saleratus in the water—that's it—go home and put in a handful of saleratus, and keep on boiling it—it may be an old one"

The next morning Tom started up Main street, walking quite fast, with a very excited air about him, and going in the saloon he at once advanced towards Vic and Jim, and pale with half [illegible], exclaimed, —"You think [illegible] smart, don t you, to tell a feller to [illegible] cocoanut, [illegible] we've bin a bilin and a biling the cussed varmint all day and all [illegible], and the blame thing aint done yet. Now I'll just let you fellers know that I don't [illegible] believe that's the right way to cook a cocoanut no-how."

Whereupon Tom called up Judge [illegible], late of Western Virginia, a knight of St. Crispin and justice of the peace, and appealed to him to prove that boiling a cocoanut was not the proper ordinary method to prepare that tropical luxury for the table. The Judge's ideas upon the subject of cocoanuts being somewhat crude, [illegible] Said the Judge, very deliberately, after takin "sugar" in his'n, "Whar I was raised I think cocoanuts was'nt gnerly bili't. If I don't [illegible], they barbacued 'em, or eat 'em like 'shell-barks, and,"—being guided by observing a smile going around—"I think, Tom, that these fellers has bin sellin you."

The idea now becoming perfectly clear to Tom that he had been "sold," he was frantic with rage, [illegible] "lick any man who [illegible] cocoanut was the right way of cooking it. The boys smiled audibly, but [illegible].

A few days [illegible] Tom came to the saloon [illegible] down his cheeks, and [illegible] generally Calling Vic [illegible] with voice tremulous w[illegible] "Boys, this bilin a cocoanut [illegible] on me, sure them fellers that [illegible] quartz mine up in the [illegible] to borrow five thousand [illegible] to give mo the ledge and the mill they are a-going to put up, for security. Boys, if I was ever right mad, that was the time Says I,—*Gentleman you didn't try to git my money till you heard I had [illegible] and* [illegible] A COCOANUT! Now *gentlemen*, I may be a d—d enough fool to bile a cocoanut, but *cuss* my everlasting 'melt' if I'm fool enough to let *my good American gold quoine* go on such security as a quartz ledge up in Boisey Basin—Git or some of us will git hurt, and they *got*"

"Now, boys, (confidentially) couldn't we get the story out that it was Joe Teal that *'biled the cocoanut,' he is a bigger fool than me, and thinks he has got a heap more money?'*

MORAL.—Never *boil* a cocoanut if you expect to be *accounted* capable of taking care of your "*good American gold quoine*"

A Vicious Whale

The Chilean whaling bark *Concepcion*, Captain Richard Gould, when off Chatham Island, fell in with a school of large sperm whales Three boats were immediately lowered in pursuit, that of the third mate, (Pedro Robles) being the first to strike a large sperm whale, which was no sooner done than the whale turned upon the boat, and taking it in its mouth crushed it to pieces, killing one man and breaking the leg of another The boat commanded by the second mate then fast ned on the same whale, but on his turning upon the boat the men jumped overboard and saved themselves, as a few seconds afterwards the boat was crushed to pieces by his ponderous jaws. The fourth mate then came up in his boat and harpooned, but exactly with the same result as the preceding boat The Captain sent the first mate to pick up the boats' crews, and this having been effected, that officer was anxious to try his luck on the cause of so much mischief, but he was dissuaded from carrying out his desires by the crew, who justly feared the consequences of so rash an attempt, there being at the time twenty-four men in the boat. The boat with the crews reached the vessel at 9 P M She was kept in the whaling ground all night and on the following morning the whale was made out, still having the lines attached The Captain then had his boat lowered and proceeded in the direction of the whale who no sooner descried his pursuers than he turned and made for the b at with open jaws and apparently resolved to make short work of his enemies as on the preceding day The Captain however skilfully fired a bomb lance d wn his throat, and by a dexterous maneuver av iding his attack and [illegible] the whale had time to turn again fired a second bomb lance which entering at the back [illegible] his fin effectually placing him *hors du combat* [illegible] was anticipated (from the size of the whale that [illegible] barrels of sperm would have been got, but [illegible] the half was obtained All the lines were recovered and from the pieces of boats floating about and picked up another boat was made

PROSPECTS OF THE ELECTION—THE DEMOCRATIC [illegible] ALARMING DISAFFECTION.

We [illegible] being humbugged by political parties. There are principles at stake or nothing at stake we care for A year ago [illegible] the [illegible] Presidency among Democrats Mr Chief Justice Chase was their dread This year even Mr Seymour was the advocate of the candidacy of Mr Chief Justice Chase as a funny candidate of the Democratic party The idea was not accepted Mr Seymour himself was put in nomination by the very interest to which he had shown himself most bitterly opposed the party that insist on paying off the five twenties in greenbacks He has accepted the platform and must sink or swim with it

Affairs are very remarkably mixed up Men may be excused for getting their heads muddled We are called on to support a candidate on national grounds, that was himself [illegible] in favor of *another* candidate most antag nistic to all decent and proper [illegible] Federal Government

We acknowledge that the affairs [illegible] dled Our correspondence is of a character to excite our alarm There is no use of disguising the fact that there is distrust and disaffection among very many Democrats

MORRISSEY TO CONGRESS AGAIN —John Morrissey is up for Congress again and probably will be returned to the legislative halls of the Republic again And why not? Is he not a representative man of a large class in the community? The gamblers, pugilists and roughs generally are no small portion of our population Since he was elected to the present Congress an extraordinary impulse has been given to the civilization of the prize ring As a natural consequence he has become more popular than ever and his chances for re-election greatly improved The prize ring has been driven from England and was rather declining here but with the elevation of such a distinguished member of it to legislative honors all the pugilists of the world are flocking hither Hence we see a great revival of the civilization of the prize ring among us —*N Y Herald Oct* 13

REMARKABLE PHENOMENON —Mr A N Bell, of Independence, Inyo county, (Cal.) writing under date of September 21st, to his brother, Mr. Jas Bell, of Sonora, giving the following account of a remarkable phenomena He says

There is quite a phenomena down on the Sierra Nevadas at the head of Kern river The earth has been shaking for more than two week—almost a constant shake It shakes the rocks down the mountain and makes the earth wave like the sea It has not been here I suppose it is a volcano getting ready to burst out The mountain opens like a hinge, hence it is not felt at a great distance off The atmosphere has been very thick here for a week and reminds me of the description given by Bulwer of the scene of darkness that covered Pompeii before its destruction Such a thing might occur here

Mr Zacharias Wilson, Portland, Oregon, writes;

"It requires an article of real merit and intrinsic value to sustain itself during the stormy ordeal of public experience. Murray's Improved Magic Oil has stood the test of time and has not been found wanting The astonishing efficacy that I experienced—its curing me of Chronic Rheumatism and Lumbago, of long standing entitles Dr. Murray's Premium Lung and Liver Balsam and Improved Magic Oil to a high rank in the list of remedies for Rheumatism Lumbago, Ear-ache, Distressing Pains etc"

John English of Howell Prairie, Marion county, Oregon writes:

"I was taken with a severe attack of Rheumatism in my knee joints and extremities accompanied with a severe cough for two months so that I had to use crutches, meanwhile trying all remedies in common use Your Magic Oil and [illegible] gave me instant relief and I was able to walk in four days without crutches. CASTONS'S X-L-SIOR

BROAD-CAST GRAIN-SOWER.

THIS VALUABLE LABOR-SAVING MACHINE which has already been adopted in nearly every Agricultural county in the State of California and in every county where it has been presented has been brought to Portland by

MR JAMES BRUSIE.

who holds the exclusive right to the same for the State of Oregon and is now ready to [illegible] immediate the farmers of this State with machines, and to sell county rights to manufacture the same.

This machine saves the entire cost and labor of sowing a field excepting the cost of a machine—the same team being used for sowing and harrowing as is used for harrowing alone the farmer or his boy riding and driving his team, instead of walking and carrying his heavy sack and then walking and dragging his grain in

The inventor of this valuable aid to farmers is a man of large experience in seeding machines and has happily succeeded in this invention in producing a machine which while it carries the farmer as if on a sulky sows wheat barley oats and peas with greater regularity than the same is sown by hand and at the same time the harrow attached to it immediately behind, covers the grain and the labor is done Any intelligent farmer who has ever [illegible] and sowed grain will readily see that the X-L-SIOR Grain Sower will save its entire cost [illegible] saving in seed—in sowing [illegible] but few acres and we have placed an improper estimate upon the enterprise of our Oregon farmers if this machine is not generally adopted in this State as it has already been in California and where the farmers write to the inventors respecting it after this manner

LINCOLN (Placer Co) Sept 4 '68

MR H A CASTON *Dear Sir* I have two complete machines (X-L-SIOR) which I challenge the State to beat for sowing grain I have not as many fingers in the shaft as you directed but *I do not want my machines to sow any better than they do I have sowed and grained it on perfectly* T C TURINGTON

By addressing or calling upon Mr Brusie at O Hopkin's corner [of] First and Morrison streets in this city machines or County Rights to manufacture and sell the machines can be purchased at reasonable rates.

NEW REMEDIES, NEW REMEDIES

Dr Gibbon's Dispensary,

616 KEARNEY STREET, NEAR COMMERCIAL, San Francisco Established in 1854, for the treatment of Sexual and Seminal Diseases, such as Gonorrhea, Gleet, Stricture, Syphilis in all its forms, Seminal Weakness, Impotency, etc Skin Diseases (of years standing) and Ulcerated Legs successfully treated

Horrible Diseases.

How many thousands of persons, both male and female, are there who are suffering out a miserable existence from the effects of secret indulgence or from virus absorbed into the system! Look at their pallid, emaciated and disfigured faces and their broken-down constitutions, disqualifying them for the happiness of marriage or the enjoyment of life In this horrid situation thousands suffer until death closes the scene Let parents, guardians friends, attend to those who are suffering with any of these horrible life destroying maladies are that they are cured for and cured before it be too late Send them immediately to Doctor Gibbon a physician who has made private disease his especial study for years and who is certain to cure the most inveterate cases without mercury or any injurious drugs It is important to those who are afflicted or to those who are interested in the welfare of their friends, to be careful of the many pretended doctors who infest all cities publishing their skill in curing all diseases in a few days imposing upon the public by using the names of eminent physicians from Europe and other places Be therefore careful and make strict inquiry, or you may fall into the hands of these charlatans

Seminal Weakness.

Seminal Emissions the consequence of self abuse This solitary vice, or depraved sexual indulgence is practiced by the youth of both sexes to an almost unlimited extent, producing, with unerring certainty, the following train of morbid symptoms, unless combatted by scientific medical measures, viz Sallow countenance dark spots under the eyes, pain in the head, ringing in the ears noise like the rustling of leaves and rattling of chariots uneasiness about the loins weakness of the limbs confused vision, blunted intellect loss of confidence diffidence in approaching strangers a dislike to form new acquaintances, a disposition to shun society, loss of memory, hectic flushes, pimples and various eruptions about the face, furred tongue feted breath coughs consumption night sweats monomania and frequent insanity If relief be not obtained should apply immediately either in person or by letter and have a cure effected by his new and scientific mode of treating this disease which never fails of effecting a quick and radical cure Dr G will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of this complaint by either of the San Francisco quacks

MARRIED MEN.

Or those who contemplate marriage who are suffering under any of those fearful maladies, should not forget the sacred responsibility resting upon them nor delay to obtain immediate relief

DOCTOR GIBBON is responsible, and will give to each patient a written instrument binding himself to effect a radical and permanent cure or make no charge.

CURED AT HOME.

Persons at a distance may be CURED AT HOME, by addressing a letter to Dr Gibbon stating case, symptoms length of time the disease has continued, and have medicines promptly forwarded free from damage and curiosity, to any part of the country with full and plain directions for use for Ten Dollars sent in registered letter or through Wells, Fargo & Co

Caution to the Unfortunate.

Beware of the San Francisco quacks and pretenders, who, with bogus sworn to certificates dupe the unwary Some of the self styled doctors whose names are to be found in the daily and weekly newspapers of San Francisco and other places are tradesmen and became too lazy to work at their trades Some are tinsmiths, shoemakers newspaper carriers intelligence office keepers etc. Look over the San Francisco Directory, and you will not find their Medical Institutes in it but you will find their former occupations in it Look at the Directory for 1862 and 1863 The only way to avoid imposition is to make enquiry—it will cost you nothing and may save you many regrets for as advertising physicians in eight cases out of ten are bogus there is no safety in trusting any of them until you know who and what they are Dr Gibbon does not deceive people by exhibiting bogus titles certificates pretended patient's letters etc Dr Gibbon will satisfy persons who may call at his office of his ability to treat diseases that he proposes to cure

EXTINGUISHER

PORTABLE

SELF-ACTING FIRE ENGINE!

THIS INVENTION HAS FOR ITS OBJECT THE extinguishing of Fires in a more instantaneous manner than has hitherto been discovered

The advantages to be derived from the use of the EXTINGUISHER are as follows

Every fire begins on a small scale, and its rapid and uncontrollable increase is owing to the fact that at the time of its commencement (when every moment's delay in checking it is of the utmost importance) no means are ready at hand

The EXTINGUISHER is the only Engine that fills this requirement

It is always ready for use though standing unused for years.

It puts out Fire instantly

It saves the great deluge of water now used for this purpose

It is as effective in the hands of a Boy as the most experienced Fireman

It is portable and as easily handled as a bucket of water

It possesses within itself the power of a force pump and as effective as a Steam Engine

It is the only known invention that will put out fires from Kerosene Tar Naphtaline and combustible materials now in common use

Expectation

BY CLARA THAYER.

Through all the lonely house the whole day long
The wind harps' fitful music sinks and swells;
A cry of pain, a medium sad and strong,
Or faint, like broken peals of silver bells.

Across the little garden comes the breeze
Kissing all its cups of flame and brings to me
Its breath of mignonette and bright sweet peas,
With drowsy murmurs from the encircling sea.

In at the open door a crimson drift
Of fluttering, faded woodbine leaves is blown
And through the clambering vine the sunbeams sift,
And trembling shadows on the floor are thrown.

I climb the stair, and from the window lean,
Seeking thy sail, O love, that still delays
Longing to catch its glimmer, searching keen
The jealous distance veiled in tender haze.

What care I if the pansies purple be,
Or sweet the wind harp wails through the slow hours?
Or that the lulling music of the sea
Comes woven with the perfume of the flowers?

Thou comest not! I ponder o'er the leaves
The crimson drift behind the open door,
Soon shall we listen to a wind that grieves,
Mourning this glad year, dead forevermore.

And O my love, shall we on some sad day
Find joys and hopes low fallen leaves,
Blown by life's chilly autumn wind away
In withered heaps God's eye alone perceives?

Come thou, and save me from my dreary thought!
Who dares to question Time, what it may bring?
Yet round us lies the radiant summer, fraught
With beauty; must we dream of suffering?

Yes, even so. Through this enchanted land,
This morning-road of life, we go to meet
The [illegible] in the desert, hand in hand,
Along God's path of pain that seek his feet.

But this one golden moment—hold it fast!
The light [illegible] low in the west the sun,
Clear red and glorious, slowly sinks at last,
And while I muse the tranquil day is done.

The land breeze freshens in thy gleaming sail!
Across the singing waves the shadows creep,
Under the new moon's thread of silver pale,
With the first star, thou comest o'er the deep!

Boiling a Cocoanut.

From the Californian

Tom is a genuine speciman of the genus *Pukelus Oregoniensis*. He lived at the Dalles, where he had retired to enjoy city life after having accumulated a competency by lucky speculations in cattle

Tom was no fool, on the contrary rather sharper than the average of *his kind*, in matters and things that he "knowed about"

One morning tom walked up town, as was his wont, to see what was going on, and stopped in front of the "Mount Hood" Saloon to exchange matutinal salutations with his friends, Jim G and Vic T., who occupied armed-chairs near the door. Adjoining the "Mount Hood" was a cigar, and "genuine meerschaum" pipe stand, and among the multitude of wares exposed for sale on the sidewalk was a huge pile of cocoanuts arranged like cannon balls. "What's them?" asked Tom. "Cocoanut," replied Jim, quietly "What are they for," Tom inquired "To eat, you darned fool," said Jim, "didn't you ever see a cocoanut before?"

"How do you eat 'em, continued Tom, waiving the reflection upon his ignorance. "Why, boil them," continued Jim, with great immobility of face. So without further delay Tom bought the largest one he could find paying six bits therefor, and made a bee-line for home.

That evening Tom came up town, and entering the "Mount Hood," said to Vic in a quiet tone, "The old woman has bin a bilen that cocoanut *all day*, and it 'pears like it aint done, [illegible] once and a while she makes a dive after it with a two pring'd fork, and it cavorts all round the kittle What do you [illegible]?"

"Why," said Vic, "perhaps you didn't put any saleratus in the water—that's it—go home and put in a handful of saleratus, and keep on boiling it—it may be an old one"

The next morning Tom started up Main street, walking quite fast, with a very excited air about him, and going in the saloon he at once advanced towards Vic and Jim, and, pale with half [illegible] rage, exclaimed.—"You think [illegible] smart, don't you, to tell a feller to [illegible] a cocoanut; hain't we've bin a bilin and a biling the cussed varmint all day and all night, and the blame thing aint done yet. Now I'll just let you fellers know that I don't yer believe that's the right way to cook [illegible]"

Whereupon Tom called up Judge , late of Western Virginia, a knight of St. Crispin and justice of the peace, and app[illegible] to him to prove that [illegible] a cocoanut was not the proper only [illegible] method to prepare that tropical luxury for the table. The Judge's ideas upon the subject of [illegible] being somewhat crude, his [illegible] was rather "mixed." Said the Judge, very deliberately, after takin "suggar in his'n," "Whar I was raised I think [illegible] wasn't ginerly bil't. If I don't [illegible] they barbacued 'em, or eat 'em like shell-barks, and,"—being guided by [illegible] a smile going around—"I think, Tom, that these fellers has bin sellin you."

The idea now becoming perfectly clear to Tom that he had been "sold," he was frantic with rage, [illegible] to "lick" any man who [illegible] a cocoanut was the right way [illegible] The boys smiled audibly, but [illegible]

A few days [illegible] Tom came to the saloon [illegible] down his cheeks, and [illegible] generally Calling Vic [illegible] with voice tremulous [illegible] "Boys, this bilin a cocoanut [illegible] on me, *sure*, them fellers that [illegible] quartz mine up in the [illegible] me to borrow five thou[illegible] to give me the ledge and [illegible] they are a-going to put up, for security. Boys, if I was ever right mad, that was the time. Says I,—*Gentleman, you didn't try to git my money till you heard I had done [illegible] and* [illegible] a cocoanut! Now *gentlemen*, I may be a d—d enough fool to bile a cocoanut, but cuss my everlasting 'melt' if I'm fool enough to let my *good American gold* [illegible] go on such security as a quartz ledge up in Boisey Basin—Git or some of us will git hurt, and they got"

"Now, boys, (confidentially) couldn't we get the story out that it was Joe Teal that 'biled the cocoanut,'—*he is a bigger fool than me, and think he has got a heap more money?*"

MORAL.—Never boil a cocoanut if you expect to be deemed capable of taking care of your "*good American gold quoine.*"

A Vicious Whale.

The Chilian whaling bark *Concepcion*, Captain Richard Gould, when off Chatham Island, fell in with a school of large sperm whales. Three boats were immediately lowered in pursuit, that of the third mate, (Pedro Robles) being the first to strike a large sperm whale, which was no sooner done than the whale turned upon the boat, and taking it in its mouth crushed it to pieces, killing one man and breaking the leg of another. The boat commanded by the second mate then fastened on the same whale, but on his turning upon the boat the men jumped overboard and saved themselves, as a few seconds afterwards the boat was crushed to pieces by his ponderous jaws. The fourth mate then came up in his boat and harpooned, but exactly with the same result as the preceding boat. The Captain sent the first mate to pick up the boats' crews, and this having been effected, that officer was anxious to try his luck on the cause of so much mischief, but he was dissuaded from carrying out his desires by the crew, who justly feared the consequences of so rash an attempt, there being at the time twenty-four men in the boat. The boat with the crews reached the vessel at 9 P M. She was kept in the whaling ground all night and on the following morning the whale was made out, still having the lines attached. The Captain then had his boat lowered and proceeded in the direction of the whale who no sooner descried his pursuers than he turned and made for the boat with open jaws and apparently resolved to make short work of his enemies as on the preceding day. The Captain, however, skillfully fired a bomb lance down his throat and by a dexterous maneuver avoiding his attack and before the whale had time to turn again fired a second bomb lance which entering at the back of his fin, effectually placing him *hors du combat*. It was anticipated from the size of the whale that [illegible] barrels of sperm would have been got, but only the half was obtained. All the lines were recovered and from the pieces of boats floating about [illegible] picked up another boat was made

PROSPECTS OF THE ELECTION—THE DEMOCRACY IN A MUDDLE. ALARM AND DISAFFECTION.

We decline being humbugged by political parties. There are principles at stake or nothing at stake we care for. A year ago General Grant was [illegible] for the Presidency among Democrats. Mr Chief Justice Chase was their ideal. This year even Mr Seymour was the advocate of the candidacy of Mr Chief Justice Chase, as a funny candidate of the Democratic party The idea was not accepted Mr Seymour himself was put in nomination by the very interest to which he had shown himself most bitterly opposed the party that insist on paying off the five twenties in greenbacks He has accepted the platform, and must sink or swim with it

Affairs are very remarkably mixed up Men may be excused for getting their heads muddled We are called on to support a candidate on national grounds, that was himself avowedly in favor of *another* candidate most antagonistic to all decent and proper ideas of Federal Government

We acknowledge that the affair is "muddled" Our correspondence is of a character to excite our alarm There is no use of disguising the fact that there is distrust and disaffection among very many Democrats

MORRISSEY TO CONGRESS AGAIN.—John Morrissey is up for Congress again and probably will be returned to the legislative halls of the Republic again And why not? Is he not a representative man of a large class in the community? The gamblers, pugilists and roughs generally are no small portion of our population Since he was elected to the present Congress an extraordinary impulse has been given to the civilization of the prize ring At a natural consequence he has become more popular than ever and his chances for re-election greatly improved. The prize ring has been driven from England and was rather declining here, but with the elevation of such a distinguished member of it to legislative honors all the pugilists of the world are flocking hither Hence we see a great revival of the civilization of the prize ring among us —*N. Y. Herald Oct 13*

REMARKABLE PHENOMENON.—Mr A. N. Bell, of Independence, Inyo county, (Cal.) writing under date of September 21st, to his brother, Mr. Jas. Bell, of Sonora, giving the following account of a remarkable phenomena He says

There is quite a phenomena down on the Sierra Nevadas, at the head of Kern river The earth has been shaking for more than two week—almost a constant shake It shakes the rocks down the mountain and makes the earth wave like the sea It has not been here I suppose it is a volcano getting ready to burst out The mountain opens like a hinge, hence it is not felt at a great distance off The atmosphere has been very thick here for a week, and reminds me of the description given by Bulwer of the scene of darkness that covered Pompeii before its destruction Such a thing might occur here

Mr Zachariah Wilson, Portland, Oregon, writes;

"It requires an article of real merit and intrinsic value to sustain itself during the stormy ordeal of public experiments. Murray's Improved Magic Oil has stood the test of time and has not been found wanting. The astonishing efficacy that I experienced—its curing me of Chronic Rheumatism and Lumbago, of long standing entitles Dr. Murray's Premium Lung and Liver Balsam and Improved Magic Oil to a high rank, in the list of remedies for Rheumatism, Lumbago, Ear-ache, Distressing Pains etc"

John English of Howell Prairie, Marion county, Oregon writes:

"I was taken with a severe attack of Rheumatism in my knee joints and ankle joints accompanied with a severe cough for two months so that I had to use crutches, meanwhile trying all remedies in common use. Farmers of Oregon!

CASTONS'S X-L-SIOR

BROAD-CAST GRAIN-SOWER.

THIS VALUABLE LABOR-SAVING MACHINE, which has already been adopted in nearly every Agricultural county in the State of California and in every county where it has been presented, has been brought to Portland by

MR JAMES BRUSIE.

who holds the exclusive right to the same for the State of Oregon, and is now ready to accommodate the farmers of this State with machines, and to sell county rights to manufacture the same.

This machine saves the entire cost and labor of sowing a field excepting the cost of a machine—the same team being used for sowing and harrowing as is used for harrowing alone the farmer or his boy riding and driving his team, instead of walking and carrying his heavy sack and then walking and dragging his grain in

The inventor of this valuable aid to farmers is a man of large experience in seeding machines, and has happily succeeded in this invention, in producing a machine which, while it carries the farmer as if on a sulky, sows wheat, barley, oats and peas with greater regularity than the same can be sown by hand on that the same time the harrow attached to it, immediately behind, covers the grain and the labor is done Any intelligent farmer who has ever carried a sack and sowed grain will readily see that the X-L-SIOR Grain Sower will save its entire cost in labor at one—to say nothing of its saving in seed—in sowing comparatively but few acres and we have placed an improper estimate upon the enterprise of our Oregon farmers if this machine is not generally adopted in this State as it has already been in California and where the farmers write to the inventors respecting it after this manner

LINCOLN (Placer Co) Sept 5 '68.

MR. H A GASTON—*Dear Sir* I have two complete machines (X-L-SIOR) which I challenge the State to beat for sowing grain I have not as many fingers in the shaft as you directed, but *I do not want my machines to sow any better than they do. I have sowed and guaged them perfectly* T C PURINGTON

By addressing or calling upon Mr Brusie at C Hopkins corner of Front and Morrison streets, in this city machines or County Rights to manufacture and sell the machines can be purchased at reasonable rates

TO THE UNFORTUNATE.

NEW REMEDIES, NEW REMEDIES

Dr Gibbon's Dispensary,

616 KEARNEY STREET, NEAR COMMERCIAL, San Francisco Established in 1854, for the treatment of Sexual and Seminal Diseases, such as Gonorrhœa, Gleet, Stricture, Syphilis in all its forms, Seminal Weakness, Impotency, etc. Skin Diseases (of years standing) and Ulcerated Legs successfully treated.

Horrible Diseases.

How many thousands of persons, both male and female, are there who are suffering out a miserable existence from the effects of secret indulgences, or from virus absorbed into the system! Look at their pallid, emaciated and disfigured faces and their broken-down constitutions, disqualifying them for the happiness of marriage or the enjoyment of life In this horrid situation thousands suffer until death closes the scene Let parents, guardians friends, attend to those who are suffering with any of these horrible life destroying maladies [illegible] that they are cured for and cured before it be too late Send them immediately to Doctor Gibbon a physician who has made private disease his especial study for years and who is certain to cure the most inveterate cases without mercury or any injurious drugs It is important to those who are afflicted, or to those who are interested in the welfare of their friends to be careful of the many pretended doctors who infest all cities, publishing their skill in curing all diseases in a few days, imposing upon the public by using the names of eminent physicians from Europe and other places Be therefore careful and make strict inquiry, or you may fall into the hands of these charlatans

Seminal Weakness.

Seminal Emissions the consequence of self-abuse. This solitary vice or depraved sexual indulgence is practised by the youth of both sexes to an almost unlimited extent, producing, with unerring certainty, the following train of morbid symptoms, unless combatted by scientific medical measures, viz Sallow countenance dark spots under the eyes, pain in the head ringing in the ears noise like the rustling of leaves and rattling of chariots uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence diffidence in approaching strangers a dislike to form new acquaintances a disposition to shun society, loss of memory, hectic flushes; pimples and various eruptions about the face, furred tongue, fetid breath coughs consumption, night sweats monomania and frequent insanity If relief be not obtained should apply immediately either in person or by letter and have a cure effected by his new and scientific mode of treating this disease which never fails of effecting a quick and radical cure. Dr G will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of this complaint by either of the San Francisco quacks

MARRIED MEN,

Or those who contemplate marriage, who are suffering under any of these fearful maladies should not forget the sacred responsibility resting upon them nor delay to obtain immediate relief

DOCTOR GIBBON is responsible and will give to each patient a written instrument binding himself to effect a radical and permanent cure or make no charge.

CURED AT HOME.

Persons at a distance may be CURED AT HOME, by addressing a letter to Dr Gibbon, stating case, symptoms length of time the disease has continued, and have medicines promptly forwarded free from damage and curiosity, to any part of the country with full and plain directions for use, for Ten Dollars, sent in registered letter or through Wells Fargo & Co

Caution to the Unfortunate.

Beware of the San Francisco quacks and pretenders, who, with bogus sworn-to certificates, dupe the unwary Some of the self styled doctors whose names are to be found in the daily and weekly newspapers of San Francisco and other places are tradesmen and became too lazy to work at their trades Some are tinsmiths, shoemakers newspaper carriers intelligence office keepers, etc Look over the San Francisco Directory, and you will not find their Medical Institutes in it but you will find their former occupations in it Look at the Directory for 1862 and 1863 The only way to avoid imposition is to make enquiry—it will cost you nothing and may save you many regrets; for as advertising physicians in eight cases out of ten are bogus, there is no safety in trusting any of them until you know who and what they are Dr Gibbon does not deceive people by exhibiting bogus titles certificates pretended patient's letters, etc Dr Gibbon will satisfy persons who may call at his office of his ability to treat diseases that he proposes to cure

EXTINGUISHER

PORTABLE

SELF-ACTING FIRE ENGINE!

THIS INVENTION HAS FOR ITS OBJECT THE extinguishing of Fires in a more instantaneous manner than has hitherto been discovered

The advantages to be derived from the use of the EXTINGUISHER are as follows

Every fire begins on a small scale, and its rapid and uncontrollable increase is owing to the fact that at the time of its commencement (when every moment's delay in checking it is of the utmost importance) no means are ready at hand

The EXTINGUISHER is the only Engine that fills this requirement

It is always ready for use though standing unused for years

It puts out Fire instantly

It saves the great deluge of water now used for this purpose

It is as effective in the hands of a Boy as the most experienced Fireman

It is portable, and as easily handled as a bucket of water.

It possesses within itself the power of a force pump and as effective as a Steam Engine

It is the only known invention that will put out Fires from Kerosene Tar Naphtaline, and combustible materials now in common use
